

DCS CONSTRUCTION

Project Delivery Report

Prepared for **DCS Construction** • July 14, 2026

This report summarizes the work completed to date: a customer-facing **online intake system** and a complete **construction management platform**. Both are live on the web.

Live site: <https://0718-lome-dcs-construction.vercel.app>

What was delivered

- **1. Client intake form** — a branded public website where customers submit work requests online.
- **2. Construction management site** — a secure staff console to receive requests, schedule visits, capture details, produce estimates, and track projects to completion.

1. Client Intake Form

A polished, mobile-friendly website styled to match dcsconstructs.com. Every “Contact Us Today” and “Get a Free Estimate” button leads to a single online request form.

- Branded home page with services, consultation, facilities maintenance, and contact sections.
- Guided request form: contact details, project location, category, description, budget/timeframe.
- Customers can attach photos of the work directly from a phone or computer.
- On submit, the customer gets a confirmation with a tracking number, and the office is notified.

2. DCS Construction Management Site

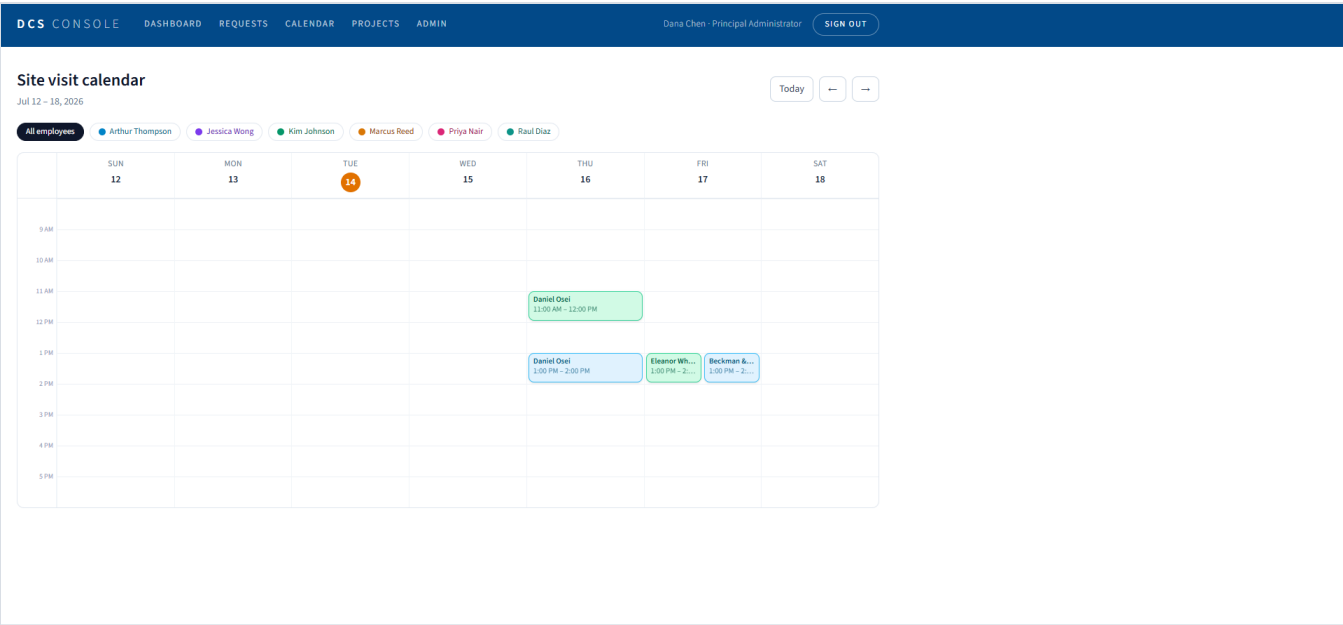

A secure, role-based console (Employee, Manager, Principal Administrator) where the team manages the whole job lifecycle.

Staff dashboard — the pipeline at a glance, with a built-in Requests-vs-Projects explainer.

Requests list — searchable and filterable by status, priority, assignment, and photos.

Site-visit calendar — weekly view, color-coded by employee.

Whitfield Kitchen Gut Renovation Eleanor Whitfield	In Progress	Marcus Reed	\$48,250.00	3/6	DCS-2026-000027
Exterior Repairs — Project 2 Henry Park	In Progress	Priya Nair	\$30,000.00	1/3	DCS-2026-000024
Plumbing Upgrades — Project 1 Grace Lee	In Progress	Marcus Reed	\$25,000.00	1/3	DCS-2026-000012

Projects — active builds with manager, contract value, and milestone progress.

3. Inside a Request → Project

Requests and projects are two stages of the same job. Here is what each one means, and how one becomes the other.

A REQUEST

A potential job. It's created the moment a customer submits the online form and becomes the single home for everything about that job — the customer, location, photos, notes, calls, site visits, and estimates. Each one gets a tracking number (e.g. DCS-2026-000028) and moves through a pipeline. Not every request becomes a project.

A PROJECT

A job that is actually happening. When the customer accepts an estimate, the request is converted into a project — adding a project manager, contract amount, planned/actual dates, and milestones tracked to completion. It stays linked to the original request, so nothing is lost.

HOW A REQUEST BECOMES A PROJECT

Request submitted → **Reviewed & contacted** → **Site visit** → **Estimate sent** → **Customer accepts** → **Project created**

A worked example: DCS-2026-000028

To see it end to end, here is a real record from the system — the **Beckman & Rowe Office Buildout** — walked through section by section.

Customer-facing status: Work in Progress

Every request has a number, an internal status, and a priority.

What a request captures

Customer & contact

Who the customer is and how they prefer to be reached.

Customer	
Name	Beckman & Rowe LLP
Phone	415-555-0342
Email	facilities@beckmanrowe.example
Preferred	EMAIL

Customer contact details.

Project details

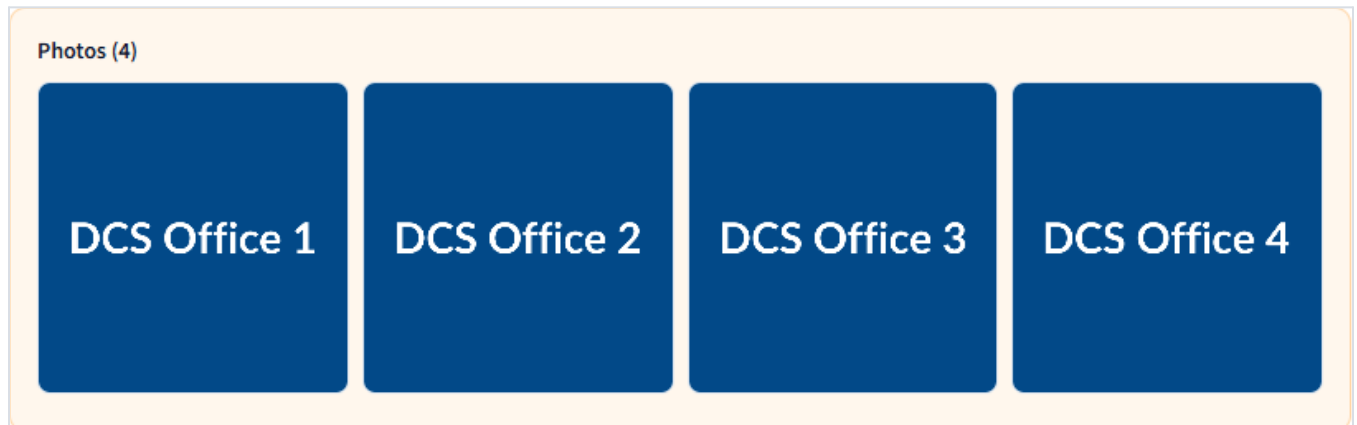

Category, budget, timeframe, referral source, and the customer's description of the work.

Project	
Category	Interior Construction
Budget	\$40k-\$150k
Timeframe	Within 3 months
Referral	Referral from a past client
Submitted	May 15, 2026, 9:26 PM
Response due	May 19, 2026, 9:26 PM
Commercial office buildout: demolition, framing, two conference rooms, HVAC coordination, and finishes.

Photos

Images the customer attached — viewable in an enlargeable gallery.

Photos submitted with the request.

Notes (internal & customer-visible)

Staff keep private internal notes and separate customer-facing notes on the same job.

Add a note

Write a note...

Internal only

Add note

Internal notes

Customer is flexible on timeline but firm on the budget cap. Keep options tight.
Priya Nair · May 25, 2026, 9:26 PM

Initial walkthrough done. Existing wiring is undersized; we'll need a subpanel.
Kim Johnson · May 18, 2026, 9:26 PM

Customer-visible notes

Materials are ordered; demolition begins next week as discussed.
Priya Nair · Jun 4, 2026, 9:26 PM

Thanks for having us out! We'll send the revised estimate by Friday.
Arthur Thompson · May 27, 2026, 9:26 PM

Internal and customer-visible notes, plus a box to add more.

Follow-up tasks

A checklist of to-dos, each assignable with a due date.

Follow-up tasks

☐ Schedule mid-project inspection
Kim Johnson · due Jul 26, 2026

☐ Confirm appliance / materials delivery date
Arthur Thompson · due Jul 19, 2026

☒ Pull permits with the city
Kim Johnson

☒ Send revised estimate
Arthur Thompson · due May 28, 2026

The request's status history from New to In Progress.

Assignment history

Who the request was assigned to over time — including re-assignments between staff.

Assignment history		
Arthur Thompson · by Priya Nair		May 31, 2026, 9:26 PM
Kim Johnson · by Priya Nair		May 16, 2026, 9:26 PM

Assignment history — reassigned from one employee to another.

Turning the request into a project

Estimates

One or more estimates can be sent. Here the first was **declined**, a **revised** quote followed, and the third was **accepted** — the accepted estimate is what converts to a project.

Estimates (3)

+ New estimate

EST-2026-000105

Accepted

\$128,900.00

Priya Nair · Sent Jun 4, 2026

Final accepted scope and pricing.

EST-2026-000104

Revised

\$135,345.00

Priya Nair · Sent Jun 2, 2026

Value-engineered revision.

EST-2026-000103

Declined

\$152,102.00

Priya Nair · Sent May 29, 2026

Initial full-scope quote.

Revise

Three estimates: declined → revised → accepted.

The project

The accepted estimate becomes a project with a manager, contract amount, planned dates, and milestones tracked to completion.
